SUMMARY

Informatics student specializing in Human-Computer Interaction, with hands-on experience in user-centered design, front-end development, and usability research. Combines technical skills in Figma and modern web languages with a strong foundation in empathy-driven, accessible design shaped by direct caregiving experience. Seeking opportunities in UX/UI, product, AI, or software development where I can combine technical skills with human-centered design.

SKILLS

Design: Figma (components, auto layout, prototyping), Adobe Photoshop & Illustrator, wireframing, high-fidelity mockups, design systems, user research, usability testing

Development: HTML, CSS, JavaScript, Python, SQL, PHP, Java (basic)

Methods: User-centered design, information architecture, interaction design, data representation, accessibility-focused design

Tools: Microsoft Office Suite (Word, Excel, PowerPoint)

EDUCATION

B.S., Informatics — Human-Computer Interaction — Indiana University, Bloomington Expected 05/2027

Relevant coursework: User Experience Design, Interaction Design, User Research Methods, Information Architecture, Web Development, Design Thinking, Data Representation

PROJECTS

Campus Transit App — UX/UI Design Class Project

- Helped design a campus transit app to make bus routes, stops, schedules, and trip-planning information easier for students to navigate.
- Contributed to the information architecture by organizing transit information around common user goals and creating clear, user-centered categories.
- Applied HCI and user-centered design principles to reduce complexity and make key transit information easier to find.

EXPERIENCE

Caregiver — Village Caregiving LLC, Bloomington, IN June 2024 – Present

- Communicate daily with clients and families to understand individual needs and adapt care accordingly — direct experience translating user needs into action, a core UX research skill
- Coordinate schedules, transportation, and care plans across multiple stakeholders, strengthening organization and cross-functional communication
- Maintain detailed records and report changes proactively, reflecting strong attention to detail and process documentation habits
- Build trust and rapport with a diverse range of clients, reinforcing an empathetic, human-centered approach to problem solving

Studio Art Model — Indiana University Eskenazi School of Art, Bloomington, IN Oct 2023 – Present

- Maintain focus and consistency through extended sessions, demonstrating discipline and reliability
- Collaborate with instructors and students in a structured creative environment

Dishwasher — Upland Brewing Co., Bloomington, IN Sep 2021 – Sep 2023

- Maintained consistent workflow and quality standards in a fast-paced, high-volume environment
- Communicated proactively with kitchen staff to anticipate needs and prioritize tasks — early experience in teamwork under time pressure
